SUMMARY

Innovative and dedicated Software Engineer with 4 years of experience in full-stack development. Demonstrated ability to devise innovative solutions to challenges and a commitment to continuous learning. Actively seeking opportunities to apply expertise in the software engineering field.

WORK EXPERIENCE

Software Engineer – Full Stack

June 2024 - Present

SUDESH ENTERPRISES & EXPORTS (PRIVATE) LIMITED, Peliyagoda, Sri Lanka. (Remote)

- Collaborated with stakeholders to plan, prioritize, and deliver project requirements 100% efficiently in Agile environments.
- Architected scalable microservices and RESTful APIs using Java and Spring Boot, resulting in a 25% improvement in unit testing.
- Implemented ReactJS micro frontends and aligned them seamlessly with backend services, which led to a 30% enhancement.
- Structured PostgreSQL databases to improve query performance, achieving a 20% increase in application speed.

Software Engineer – Full Stack

January 2024 - June 2024

XdotO Concepts Pte Limited, International Plaza, Singapore. (Remote)

- Collaborated with cross-functional teams to plan and manage projects effectively in Agile environments, contributing to 100% on-time project delivery.
- Developed microservice functionalities and RESTful APIs using Java, Spring Boot, and Hibernate, achieving a 25% reduction in data processing time.
- Designed and implemented ReactJS micro frontend components, integrating them with backend APIs, resulting in a 30% boost in user interface responsiveness.
- Architected MySQL database systems to enhance performance, leading to a 20% increase in application speed for generating reports.

Associate Software Engineer – Full Stack

March 2023 - January 2024

XdotO Concepts Pte Limited, International Plaza, Singapore. (Remote)

- Designed microservice features and RESTful APIs using Java, Spring Boot, and Hibernate, ensuring an 80% system uptime guarantee.
- Built micro frontend components of ReactJS, contributing to a 45% improvement in user experience metrics.
- Innovated and deployed PHP, JavaScript, and Vue.js-based web applications on Linux servers with a 10% uptime, ensuring reliable and accessible solutions.
- Created comprehensive reports using MySQL views and stored procedures, leading to a 95% accuracy in data analysis.

Intern Software Engineer - Full Stack

September 2022 - March 2023

XdotO Concepts Pte Limited, International Plaza, Singapore. (Remote)

- Developed and tested RESTful APIs with Java and Spring Boot, ensuring robust and efficient backend operations with a 90% success rate.
- Built ReactJS components and functionalities for attractive applications, resulting in a 50% enhancement in user interface performance.
- Optimized database performance by fine-tuning MySQL queries, achieving a 10% reduction in response times.

EDUCATION

Bachelor of Science with Honours in Software Engineering January 2020 - June 2023

Birmingham City University, UK.

(Affiliated through the Java Institute for Advanced Technology, Sri Lanka.)

SQAF Levels 7, 8, and 9 in Software Engineering

January 2020 - January 2023

SQA: Scottish Qualifications Authority, Scotland.

(Affiliated through the Java Institute for Advanced Technology, Sri Lanka.)

Nalanda College, Colombo 10, Sri Lanka

2008 - 2019

SKILLS

- **Backend:** Java, Spring Boot, Java EE, Python, Django, FastAPI, PHP, Hibernate
- **Frontend:** ReactJS, Vue.js, JavaScript, HTML, CSS, Bootstrap, Material UI
- **Databases:** MySQL, PostgreSQL, Firebase, MongoDB, Oracle
- **Clouds:** AWS, Google Cloud
- **Containers:** Docker
- **Version Control:** GIT (GitHub, GitLab, Bitbucket)
- **Operating Systems:** Windows, Android, Linux, Ubuntu
- **Human Languages:** English, Sinhala

PROJECTS

ERP System

- Developed microservices and micro frontend functionalities using Java, Spring Boot, ReactJS, PostgreSQL, Hibernate, Bootstrap, Material UI, and AWS, accounting for 35% of overall project contributions.

Melioraa

Industry 4.0 Machine Monitoring System

- Created microservices APIs and micro frontend components for managing machine dashboards, utilizing Java, Spring Boot, ReactJS, MySQL, Hibernate, Bootstrap, Material UI, Apache ECharts, and AWS, comprising 35% of project experience.

Power App

Alarms and Notification Management System

- Constructed micro frontend components and microservices APIs for site management via an admin panel, with daily report pushing to an S3 bucket using Java, Spring Boot, ReactJS, MySQL, Hibernate, Bootstrap, and AWS, contributing 30% of project experience.
